The second consideration is that community development does not cause significant environmental damage to surrounding areas. PoliticalGovernmental Factors-The primary parameter associated with the public sector was that the temporary communitys location will meet with approval from Kane County, Utah. SITING CONCLUSIONS On the basis of the locational analysis, the sites considered optimal for temporary community development were determined to be Numbers 1 anl 5, the two alternate new town site alternatives under consideration. The basic findings which support this conclusion were as follows: o Site Numbers 1 and S both provide superior overall access to all potential regional destinations. o Sites 1 and S should both provide excellent amenity value and environmental quality for community residents. Site 1 has excellent amenity potential associated with Lake Powell, while Site S is rich in visual quality. o Housing stock and infrastructure recyclability should be excellent at Sites 1 and S since both sites are alternate new town locations. o The development and recapture costs of infrastructure and housing should be minimal at Sites 1 and 5 since they are alternate new town sites. o Development costs accruing to Southern California Edison should be minimized at Sites 1 and 5 since the joint location of the new town and temporary community should exhibit economies of scale with Trespect to construction and disposition expenses. o The primary physical;iol . em associated with Sites 2, 3, and 4 is poor soil quality. The two alternate new town sites provide a comparatively better soil base for...
