Not illustrated. 1905 Excerpt: .solution, and a mixture of the thiosulphate and sulphite solution has been found superior to any other thus far tried. In making use of any of the above solutions the skin may be introduced directly from the bate after washing, or it may be prepared in any desired way. Thus, if a skin is only partly tanned by vegetable or mineral tanning material, the tanning may be completed in any of the above baths of chromic-oxide salts. SUBSTITUTE FOR SHELLAC. Carl Ludwig, of Schonberg, Germany. Patent No. 760,541, dated May 24, 1904. The product essentially consists of cheap resins soluble in alcohol, being mixed with oleic acid and saponified by boiling with alkali-hydroxide and decomposed by acid. The precipitate obtained after being washed and dried is the new product, which can substitute shellac for the purpose of polishing. Further, the work with the new product is...

Reviews

The ideal ebook i actually read through. It really is written in simple words and phrases and not confusing. Its been written in an remarkably simple way and it is just after i finished reading this ebook where in fact modified me, affect the way i think.

-- **Alice Cremin**

This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that i am sure that i am going to gonna go through once more again in the future. I am happy to explain how this is the very best book i have read through in my individual lifestyle and may be the best publication for at any time.
