Making money with smart phone apps Smart phones have become a ubiquitous part of society. They are everywhere. People are constantly on them updating their social media status, watching videos, movies and TV shows checking stocks and just about everything else you can think of and he has even occasionally actually talking to someone by making a real old-fashioned phone call. All of these things all of these convenient things that a smart phone allows you to do are the result of apps or applications apps are specialized programs that are generally designed to operate on smart phones and tablets, such as an iPhone or an iPad. Sometimes these applications are created by the device companies themselves such as Apple or Samsung. However, there are a lot of applications that are made by third-party companies. These are usually things like games, but they can also be applications for getting stock quotes or weather reports or even applications that will help pilots fly their aircraft. Apps for smartphones generate tons of money billions of dollars a year. In fact, and with the popularity of smart phones showing absolutely no signs of slowing down, designing and marketing apps for smart phones and tablets is a very lucrative business to be sure. Now you may be thinking to yourself, designing and marketing smart phone apps sounds great but I have no programming but I have no programming experience and I wouldn't even begin to know how to market a smart phone. That's no problem. Believe it or not, having no programming experience is no problem. All you really need to be successful smart phone app business...
