

Blacks and Science Volume Three: African American Contributions to Science and Technology (Paperback)

By Robin Oliver Walker, MR Robin Walker

Createspace, United States, 2013. Paperback. Book Condition: New. 224 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Did YOU know that a camera invented by a Black astrophysicist was used during the Apollo 16 space mission to collect ultraviolet images photographed from the moon? In fact did you know any of the following facts? An early eighteenth century Virginia slave developed effective treatments against skin and venereal disease. In fact: His work was so outstanding that in 1729 the Virginia Legislature bought him from his owner, thus freeing him from slavery, to practice medicine exclusively Astronomical works by a late eighteenth century Black mathematician and astronomer were widely read and became a household staple in early America along with the Bible A nineteenth century African American blacksmith patented an invention described as the most important single invention in the whole history of whaling A nineteenth century inventor of Black South American heritage created such a revolution in the shoe industry, that it was said of him: What Edison is to artificial lighting, [he] is to footwear By 1913, African Americans held around 1,000 patents for various inventions in household goods, industrial machinery, transportation, electricity and...
